10 BC fire extinguisher
Ground fault interrupter
Daytime running lamps
Fog lamps
High-mount brake lamps

Warranty⁷

12-month/15,000-mile basic limited warranty¹
36-month/36,000-mile limited warranty on structure¹
10-year limited parts-and-labor warranty on roof skin¹

- 1 The height of each model is measured to the top of the roof, standard feature and is based on the dry weight of a typically equipped unit. The actual height of your vehicle may vary by model and depending on chassis or equipment variations. Please consult your dealer for further information.
- 2 The floorplans feature a slide-toy design - over 90". In making your purchase decision, you should be aware that some model models may not allow or all this may be 90" in body width. Before making your purchase decision, you should confirm the road usage laws in the state of interest to you.
- 3 The load capacity of your motorhome is determined by weight, not pressure, so you cannot exceed any and all available space when loading your motorhome.
- 4 Capacities are based on manufacturer's rated gross capacity (G.C.). Actual fill LP capacity is 80% of 3-amp due to overfilling prevention device on tank.
- 5 Actual tow capacity is dependent on your particular loading and towing circumstances which include the GVWR, GVW, and GCWR, as well as subsequent axle loads. Please refer to the Operator's Manual of your vehicle for further towing information.
- 6 See separate chassis warranty.
- 7 See your dealer for complete warranty information.
